

COMPLETE DOCUMENT CATALOG — All Nodes & Apps

Last Updated: 2026-06-20
Status: Content populated for working/messenger and priority 1 technical nodes

Overview

This document lists ALL documents in the SUMMARYDOCS documentation center, organized by node and application.

Node: working

Application: messenger

Manifest

File	Path	Size
Application Manifest	docs/app-canonical/working/messenger/manifest.json	~300B

Screens (5)

ID	File	Path	Description
login	login.md	docs/app-canonical/working/messenger/screens/login.md	User login screen — authentication entry point
chat	chat.md	docs/app-canonical/working/messenger/screens/chat.md	Main chat interface — message display and composition
profile	profile.md	docs/app-canonical/working/messenger/screens/profile.md	User profile screen — display and editing
settings	settings.md	docs/app-canonical/working/messenger/screens/settings.md	Application settings — theme, language, preferences
notifications	notifications.md	docs/app-canonical/working/messenger/screens/notifications.md	Notifications panel — push notification management

Transitions (6)

ID	File	Path	Description
----	------	------	-------------

ID	File	Path	Description
login-to-chat	login-to-chat.md	docs/app-canonical/working/messenger/transitions/login-to-chat.md	Login → Chat — authentication success
chat-to-profile	chat-to-profile.md	docs/app-canonical/working/messenger/transitions/chat-to-profile.md	Chat → Profile — avatar click
profile-to-settings	profile-to-settings.md	docs/app-canonical/working/messenger/transitions/profile-to-settings.md	Profile → Settings — settings icon click
chat-to-notifications	chat-to-notifications.md	docs/app-canonical/working/messenger/transitions/chat-to-notifications.md	Chat → Notifications — bell icon click
notifications-to-chat	notifications-to-chat.md	docs/app-canonical/working/messenger/transitions/notifications-to-chat.md	Notifications → Chat — notification tap
settings-to-login	settings-to-login.md	docs/app-canonical/working/messenger/transitions/settings-to-login.md	Settings → Login — logout

Scenarios (4)

ID	File	Path	Description
user-login-flow	user-login-flow.md	docs/app-canonical/working/messenger/scenarios/user-login-flow.md	Complete user authentication workflow
send-message	send-message.md	docs/app-canonical/working/messenger/scenarios/send-message.md	Send message workflow
view-profile	view-profile.md	docs/app-canonical/working/messenger/scenarios/view-profile.md	View and edit profile workflow
push-notification	push-notification.md	docs/app-canonical/working/messenger/scenarios/push-notification.md	Push notification handling workflow

Integrations (3)

ID	File	Path	Description
auth-service	auth-service.md	docs/app-canonical/working/messenger/integrations/auth-service.md	User authentication and session management

ID	File	Path	Description
firebase-push	firebase-push.md	docs/app-canonical/working/messenger/integrations/firebase-push.md	Firebase push notifications
media-upload	media-upload.md	docs/app-canonical/working/messenger/integrations/media-upload.md	Media file upload (avatars, attachments)

Maps

Type	File	Path
Linked View	linked-view.json	docs/app-canonical/working/messenger/maps/linked-view.json

Documentation

Type	File	Path
Applications Spec	applications.md	docs/app-canonical/working/messenger/docs/applications.md
Screens Spec	screens.md	docs/app-canonical/working/messenger/docs/screens.md
Transitions Spec	transitions.md	docs/app-canonical/working/messenger/docs/transitions.md
Scenarios Spec	scenarios.md	docs/app-canonical/working/messenger/docs/scenarios.md
Integrations Spec	integrations.md	docs/app-canonical/working/messenger/docs/integrations.md

Application: workdocs-working

Manifest

File	Path	Description
Application Manifest	docs/app-canonical/working/workdocs-working/manifest.json	Technical documentation node

Screens (4)

ID	Title	Status
docs-view	Documentation Viewer	active
docs-search	Documentation Search	active
docs-auth	Authentication	active
docs-settings	Documentation Settings	draft

Transitions (3)

ID	From	To	Status
auth-to-docs	docs-auth	docs-view	active
docs-view-to-search	docs-view	docs-search	active

ID	From	To	Status
docs-search-to-docs-view	docs-search	docs-view	active

Scenarios (3)

ID	Title	Actor	Status
view-document	View Documentation	developer	active
search-docs	Search Documentation	developer	active
ai-read-docs	AI Read Documentation	ai-agent	active

Integrations (2)

ID	Title	Target	Status
kpdegen-integration	Kpdegen Integration	kpdegen-working	active
nodes-switcher-integration	Nodes Switcher Integration	nodes-switcher-working	active

Application: kpdegen-working

Manifest

File	Path	Description
Application Manifest	<code>docs/app-canonical/working/kpdegen-working/manifest.json</code>	Server code generator node

Screens (4)

ID	Title	Status
codegen-dashboard	Codegen Dashboard	active
codegen-input	Input Processing	active
codegen-output	Output Preview	active
codegen-settings	Codegen Settings	draft

Transitions (3)

ID	From	To	Status
dashboard-to-input	codegen-dashboard	codegen-input	active
input-to-output	codegen-input	codegen-output	active
output-to-dashboard	codegen-output	codegen-dashboard	active

Scenarios (3)

ID	Title	Actor	Status
generate-node	Generate Node Code	ai-agent	active

ID	Title	Actor	Status
generate-config	Generate Config	ai-agent	active
validate-output	Validate Output	system	active

Integrations (3)

ID	Title	Target	Status
workdocs-integration	Workdocs Integration	workdocs-working	active
nodes-switcher-integration	Nodes Switcher Integration	nodes-switcher-working	active
projectsettings-integration	Project Settings Integration	projectgeneralsettings-working	active

Application: nodes-switcher-working

Manifest

File	Path	Description
Application Manifest	<code>docs/app-canonical/working/nodes-switcher-working/manifest.json</code>	Node version manager node

Screens (4)

ID	Title	Status
version-registry	Version Registry	active
rollout-control	Rollout Control	active
compatibility-check	Compatibility Check	active
rollout-settings	Rollout Settings	draft

Transitions (3)

ID	From	To	Status
registry-to-rollout	version-registry	rollout-control	active
rollout-to-compatibility	rollout-control	compatibility-check	active
compatibility-to-registry	compatibility-check	version-registry	active

Scenarios (3)

ID	Title	Actor	Status
register-version	Register New Version	devops	active
rollout-version	Rollout Version	devops	active
check-compatibility	Check Compatibility	system	active

Integrations (3)

ID	Title	Target	Status
kpdegen-integration	Kpdegen Integration	kpdegen-working	active
projectsettings-integration	Project Settings Integration	projectgeneralsettings-working	active
workdocs-integration	Workdocs Integration	workdocs-working	active

Application: projectgeneralsettings-working

Manifest

File	Path	Description
Application Manifest	docs/app-canonical/working/projectgeneralsettings-working/manifest.json	Central settings UI node

Screens (5)

ID	Title	Status
settings-dashboard	Settings Dashboard	active
project-settings	Project Settings	active
node-settings	Node Settings Map	active
feature-flags	Feature Flags	active
release-toggles	Release Toggles	draft

Transitions (4)

ID	From	To	Status
dashboard-to-project	settings-dashboard	project-settings	active
dashboard-to-node	settings-dashboard	node-settings	active
dashboard-to-features	settings-dashboard	feature-flags	active
dashboard-to-releases	settings-dashboard	release-toggles	draft

Scenarios (4)

ID	Title	Actor	Status
manage-project-settings	Manage Project Settings	admin	active
manage-node-settings	Manage Node Settings	admin	active
manage-feature-flags	Manage Feature Flags	product-owner	active
manage-release-toggles	Manage Release Toggles	admin	draft

Integrations (3)

ID	Title	Target	Status
nodes-switcher-integration	Nodes Switcher Integration	nodes-switcher-working	active

ID	Title	Target	Status
kpdegen-integration	Kpdegen Integration	kpdegen-working	active
workdocs-integration	Workdocs Integration	workdocs-working	active

Summary Statistics

By Node

Node	Apps	Total Files	Content Status
working	5	64	☒ Populated

By Application

App	Screens	Transitions	Scenarios	Integrations	Total
messenger	5	6	4	3	25
workdocs-working	4	3	3	2	12
kpdegen-working	4	3	3	3	13
nodes-switcher-working	4	3	3	3	13
projectgeneralsettings-working	5	4	4	3	16
Total	22	19	17	14	72

By Type

Type	Count	Files
Screens	22	screens/*.md
Transitions	19	transitions/*.md
Scenarios	17	scenarios/*.md
Integrations	14	integrations/*.md
Manifests	5	manifest.json
Maps	1	maps/linked-view.json
Docs Specs	5	docs/*.md

Content Status

Populated (real content from project docs):

- ☒ [working/messenger](#) — 25 files with real content from [project/nodes/Messenger/](#)
- ☒ [working/workdocs-working](#) — manifest with real content from [project/nodes/Nodes/technical/NODE_workdocs_working.md](#)
- ☒ [working/kpdegen-working](#) — manifest with real content from [project/nodes/Nodes/technical/NODE_kpdegen_working.md](#)
- ☒ [working/nodes-switcher-working](#) — manifest with real content from [project/nodes/Nodes/technical/NODE_nodes_switcher_working.md](#)

- ☒ `working/projectgeneralsettings-working` — manifest with real content from `project/nodes/Nodes/technical/NODE_projectgeneralsettings_working.md`

Remaining (no app-doc structure yet):

- ✗ 10 working branch nodes (api, files, docs, future, pilot-future, admin, workers, about, apps, working-root)
- ✗ 14 production/alpha nodes (balloo.su, api.balloo.su, ai.api.balloo.su, files.balloo.su, docs.balloo.su, future.balloo.su, admin.balloo.su, workers.balloo.su, about.balloo.su, apps.balloo.su, client-apps, alpha.balloo.su, apps.alpha.balloo.su, 2commands.alpha.balloo.su)
