

DESIGN — SUMMARYDOCS Web Reader Design System

Overview

Unified design system for ALL pages of the SUMMARYDOCS documentation center. This document defines the visual language, components, and layout rules that **MUST** be followed for every screen in the application.

⚠ MANDATORY RULE

ALL pages in the SUMMARYDOCS web reader MUST follow this design system.

Any new page, modal, component, or view **MUST** use the defined tokens, spacing, typography, and colors. No exceptions. No custom styles that override the design tokens.

1. Color Palette

Primary Colors

Token	Hex	Usage
--color-primary	#2563eb	Main brand, links, primary buttons
--color-primary-hover	#1d4ed8	Hover states for primary elements
--color-primary-light	#dbeafe	Backgrounds, badges
--color-primary-text	#ffffff	Text on primary background

Semantic Colors

Token	Hex	Usage
--color-success	#16a34a	Success states, active status
--color-success-bg	#dcfce7	Success backgrounds, badges
--color-warning	#ca8a04	Warning states, deprecated status
--color-warning-bg	#fef9c3	Warning backgrounds, badges
--color-error	#dc2626	Error states, errors
--color-error-bg	#fee2e2	Error backgrounds, badges
--color-info	#0891b2	Informational states
--color-info-bg	#cffffe	Info backgrounds, badges

Neutral Colors

Token	Hex	Usage
--color-gray-50	#f9fafb	Page backgrounds
--color-gray-100	#f3f4f6	Card backgrounds, borders
--color-gray-200	#e5e7eb	Dividers, secondary borders
--color-gray-300	#d1d5db	Disabled states, placeholders
--color-gray-400	#9ca3af	Secondary text, icons
--color-gray-500	#6b7280	Body text, labels
--color-gray-600	#4b5563	Headings, emphasis
--color-gray-700	#374151	Dark text
--color-gray-800	#1f2937	Primary text
--color-gray-900	#111827	Headings, strong emphasis
--color-white	#ffffff	Card backgrounds, text on dark

Status Colors

Type	Background	Text	Border
Active	#dcfce7	#166534	#86efac
Draft	#fef3c7	#92400e	#fcd34d
Deprecated	#fee2e2	#991b1b	#fca5a5
Info	#dbeafe	#1e40af	#93c5fd

2. Typography

Font Family

```
font-family: -apple-system, BlinkMacSystemFont, 'Segoe UI', Roboto, 'Helvetica Neue', Arial, sans-serif;
```

Type Scale

Level	Size	Weight	Line Height	Usage
h1	36px (2.25rem)	700	1.2	Page titles
h2	28px (1.75rem)	600	1.3	Section titles
h3	22px (1.375rem)	600	1.4	Card titles, subheadings

Level	Size	Weight	Line Height	Usage
<code>body-lg</code>	16px (1rem)	400	1.6	Body text
<code>body</code>	14px (0.875rem)	400	1.5	Standard body
<code>body-sm</code>	12px (0.75rem)	400	1.4	Captions, labels
<code>code</code>	13px (0.8125rem)	400	1.5	Code, monospace

Text Colors

Context	Color
Primary text	<code>--color-gray-900</code>
Secondary text	<code>--color-gray-600</code>
Tertiary text	<code>--color-gray-400</code>
Links	<code>--color-primary</code>
Links hover	<code>--color-primary-hover</code>
Disabled	<code>--color-gray-300</code>

3. Spacing System

All spacing uses 4px base grid.

Token	Value	Usage
<code>--space-1</code>	4px	Tiny gaps, icon padding
<code>--space-2</code>	8px	Small gaps, list items
<code>--space-3</code>	12px	Card padding, form gaps
<code>--space-4</code>	16px	Default padding
<code>--space-5</code>	20px	Component gaps
<code>--space-6</code>	24px	Section padding
<code>--space-8</code>	32px	Page padding
<code>--space-10</code>	40px	Large sections
<code>--space-12</code>	48px	Hero sections

Layout Padding

Element	Padding
Page container	<code>px-6 py-8</code> (24px horizontal, 32px vertical)

Element	Padding
Card	<code>p-4</code> (16px)
Card header	<code>px-4 pt-4 pb-2</code>
Card footer	<code>px-4 py-3</code>
Form group	<code>space-y-3</code> (12px between fields)
Button group	<code>gap-2</code> (8px)

4. Border Radius

Token	Value	Usage
<code>--radius-sm</code>	4px	Inputs, badges
<code>--radius-md</code>	8px	Cards, buttons, modals
<code>--radius-lg</code>	12px	Large containers
<code>--radius-full</code>	9999px	Avatars, pills

5. Shadows

Token	Value	Usage
<code>--shadow-sm</code>	<code>0 1px 2px rgba(0,0,0,0.05)</code>	Cards, nav items
<code>--shadow-md</code>	<code>0 4px 6px rgba(0,0,0,0.07)</code>	Hover cards, dropdowns
<code>--shadow-lg</code>	<code>0 10px 15px rgba(0,0,0,0.1)</code>	Modals, overlays
<code>--shadow-inner</code>	<code>inset 0 2px 4px rgba(0,0,0,0.05)</code>	Input focus

6. Component Styles

Buttons

Variant	Background	Text	Hover	Border
Primary	<code>--color-primary</code>	<code>--color-white</code>	<code>--color-primary-hover</code>	none
Secondary	<code>--color-gray-100</code>	<code>--color-gray-700</code>	<code>--color-gray-200</code>	<code>--color-gray-200</code>
Success	<code>--color-success</code>	<code>--color-white</code>	<code>#15803d</code>	none
Danger	<code>--color-error</code>	<code>--color-white</code>	<code>#b91c1c</code>	none

Variant	Background	Text	Hover	Border
Ghost	transparent	<code>--color-gray-600</code>	<code>--color-gray-100</code>	none
Size	Padding	Font Size		
SM	<code>px-2 py-1</code>	12px		
MD	<code>px-4 py-2</code>	14px		
LG	<code>px-6 py-3</code>	16px		

Cards

Property	Value
Background	<code>--color-white</code>
Border	<code>1px solid --color-gray-200</code>
Border Radius	<code>--radius-md</code> (8px)
Padding	<code>--space-4</code> (16px)
Shadow	<code>--shadow-sm</code>
Hover Shadow	<code>--shadow-md</code>

Inputs

Property	Value
Background	<code>--color-white</code>
Border	<code>1px solid --color-gray-300</code>
Border Radius	<code>--radius-sm</code> (4px)
Padding	<code>--space-2</code> vertical, <code>--space-3</code> horizontal
Font Size	14px
Focus Border	<code>2px solid --color-primary</code>
Focus Ring	<code>outline-none + ring-2 ring-blue-500</code>
Disabled	<code>--color-gray-100, --color-gray-400</code> text

Badges

Property	Value
Padding	<code>1px 8px</code>
Font Size	11px

Property	Value
Font Weight	500
Border Radius	<code>--radius-sm</code> (4px)

Tables

Property	Value
Header Background	<code>--color-gray-50</code>
Header Text	<code>--color-gray-700</code>
Row Hover	<code>--color-gray-50</code>
Border	<code>1px solid --color-gray-200</code>
Cell Padding	<code>--space-3</code> horizontal, <code>--space-2</code> vertical

Modals

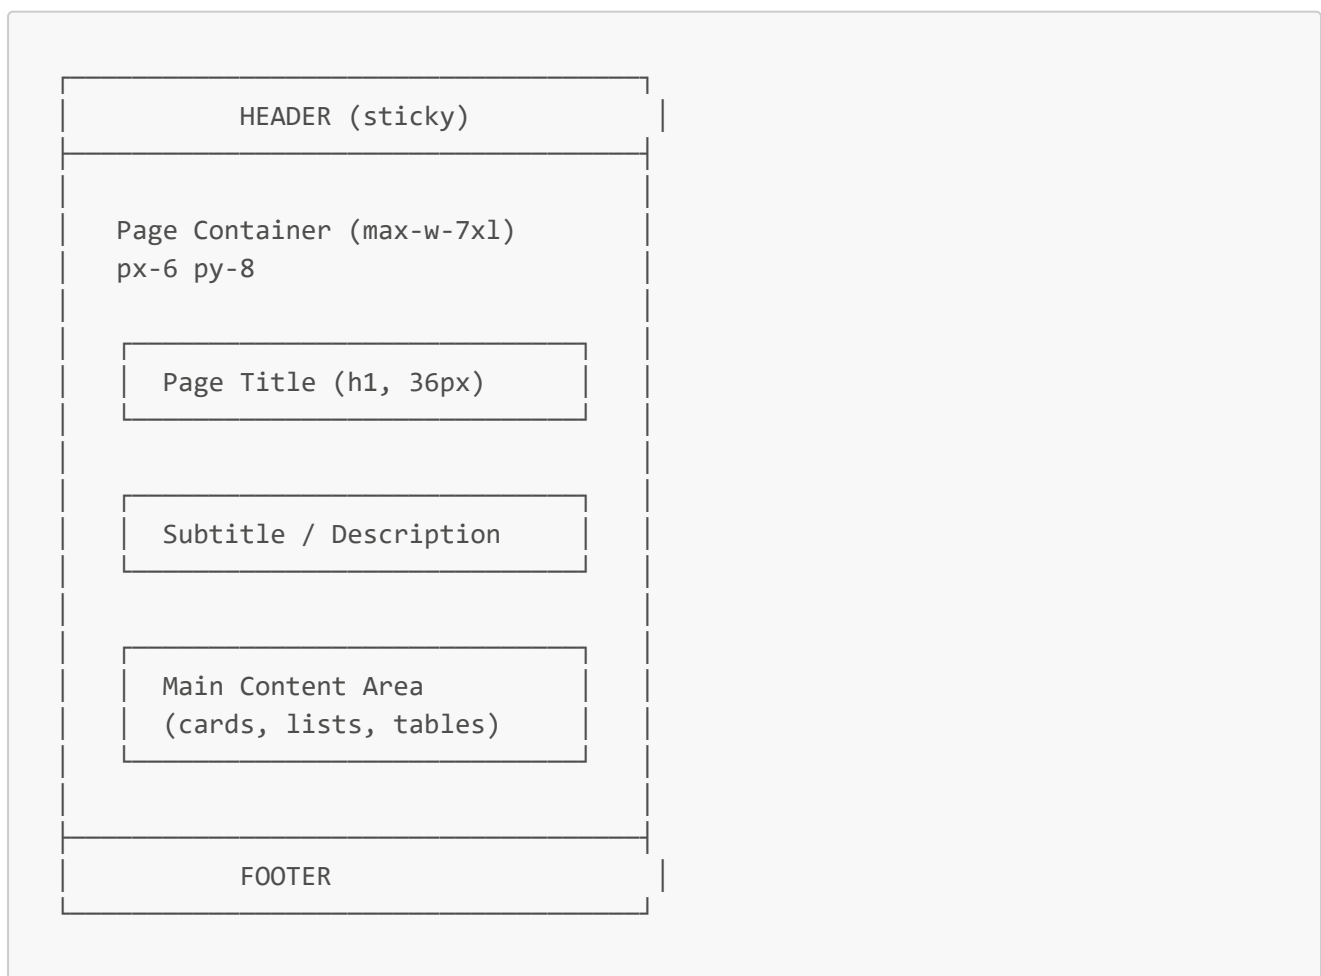

Property	Value
Overlay	<code>bg-black/50</code>
Background	<code>--color-white</code>
Border Radius	<code>--radius-lg</code> (12px)
Max Width	<code>w-full max-w-2xl</code>
Max Height	<code>max-h-[80vh]</code>
Padding	<code>--space-6</code> (24px)
Shadow	<code>--shadow-lg</code>

Navigation

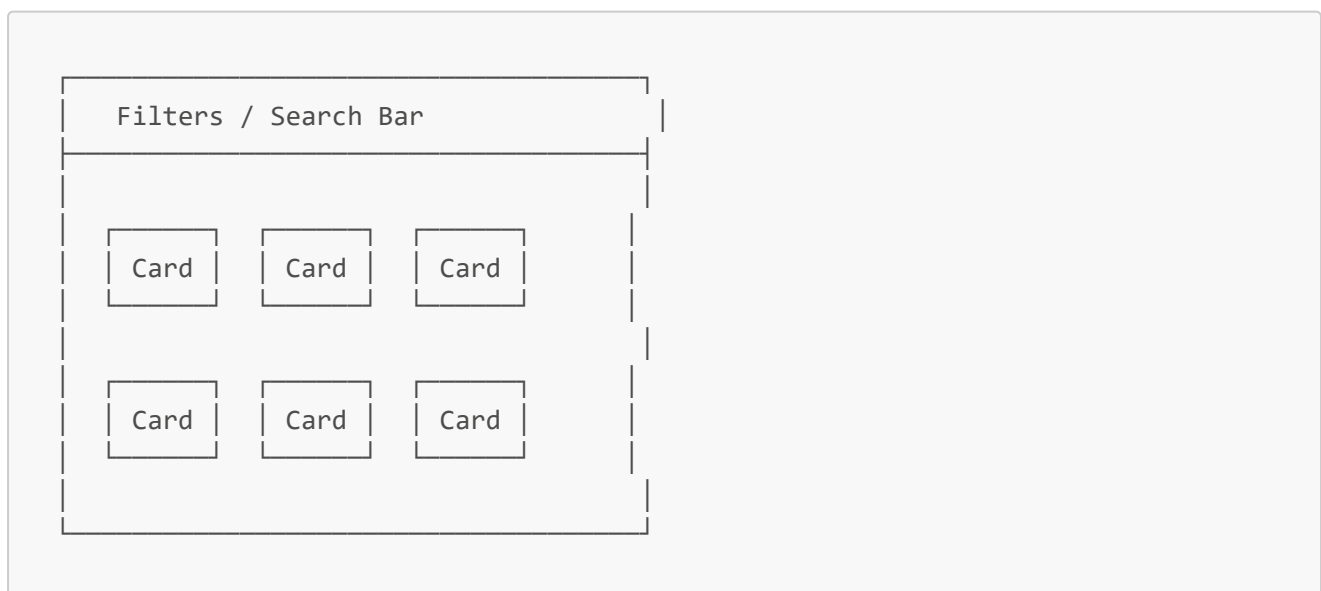

Element	Style
Active item	<code>--color-primary</code> text, underline or left border
Inactive item	<code>--color-gray-600</code> text, hover to <code>--color-gray-900</code>
Header background	<code>--color-white</code>
Header border	<code>1px solid --color-gray-200</code>
Header sticky	<code>position: sticky; top: 0; z-index: 40</code>

7. Page Layouts

Standard Page Layout

Card Grid Layout

Grid: `grid-cols-1 md:grid-cols-2 lg:grid-cols-3 gap-4`

8. Dark Mode (Future)

Reserved for future implementation. Tokens will map to:

- `dark:--color-primary` = `#3b82f6`

- `dark:--color-gray-900 = #f9fafb`
- `dark:--color-gray-50 = #111827`

9. Accessibility

Requirement	Value
Minimum contrast ratio	4.5:1 for normal text, 3:1 for large text
Focus indicators	Visible outline on all interactive elements
Keyboard navigation	All elements reachable via Tab/Enter/Escape
Screen readers	Semantic HTML, ARIA labels where needed
Font size	Minimum 14px for body text

10. Implementation Rules

1. **Use Tailwind CSS utility classes** — do not write custom CSS unless absolutely necessary
 2. **Reference design tokens** — use Tailwind's built-in color scale and spacing
 3. **Follow component styles** — use defined button, card, input styles
 4. **Maintain consistent padding** — 16px for cards, 24px for page containers
 5. **Use semantic colors** — success/error/warning for status, not arbitrary colors
 6. **Keep it simple** — no gradients, no animations (unless specified), no custom shadows
 7. **Mobile first** — all layouts must be responsive
-

11. Required Pages Design

Page 1: Home (/)

- **Layout:** Hero section with title and description
- **Elements:** Navigation cards to major sections (Catalog, App Docs, Linked View)
- **Design:** Clean, minimal, centered content
- **Mandatory:** Header + Footer

Page 2: Document Catalog (/catalog)

- **Layout:** Filter bar at top, card grid below
- **Elements:** Category filters, search input, document cards with tags
- **Design:** Dense information display, consistent card heights
- **Mandatory:** Header + Footer

Page 3: App Docs Index (/docs/app-canonical)

- **Layout:** Search bar at top, list of application entries
- **Elements:** App cards with title, status badge, node ID
- **Design:** List layout with hover states

- **Mandatory:** Header + Footer

Page 4: App Viewer ([/docs/app-canonical/\[nodeId\]/\[appId\]](#))

- **Layout:** Header with app info, content area with linked view
- **Elements:** Counters bar, type filters, object grid, detail panel
- **Design:** Three-column layout on desktop, single column on mobile
- **Mandatory:** Header + Footer

Page 5: Linked View ([/appdocs](#))

- **Layout:** App selector tabs at top, viewer below
- **Elements:** Tab buttons, counters, filters, object grid, detail panel
- **Design:** Similar to App Viewer but with app switching
- **Mandatory:** Header + Footer

Page 6: All Documents ([/docs](#))

- **Layout:** Search bar at top, file list below
- **Elements:** Search input, file cards with path and size
- **Design:** Simple list, monospace font for paths
- **Mandatory:** Header + Footer

Page 7: Error ([/error](#))

- **Layout:** Centered error message
- **Elements:** Error code, message, "Try again" button, "Go home" link
- **Design:** Minimal, centered, clear error state
- **Mandatory:** Header + Footer

Page 8: 404 ([/not-found](#))

- **Layout:** Centered 404 message
- **Elements:** 404 code, explanation, "Go home" button
- **Design:** Minimal, friendly error state
- **Mandatory:** Header + Footer

Page 9: Privileged Editor Modal

- **Layout:** Full-screen overlay with centered modal
- **Elements:** Password input (if not verified), editable fields, diff summary, save/cancel buttons
- **Design:** Modal with scrollable content area, clear action buttons
- **Mandatory:** Overlay closes on Escape, backdrop click

MANDATORY REQUIREMENT

When creating any new page or component in the SUMMARYDOCS web reader:

1. **Read this DESIGN.md document first**
2. **Follow the color palette** — use only defined tokens
3. **Follow the spacing system** — use 4px base grid
4. **Follow the typography scale** — use defined font sizes and weights
5. **Follow the component styles** — use defined button, card, input styles
6. **Ensure responsive layout** — mobile-first approach
7. **Include Header and Footer** — via root layout
8. **Include error handling** — via error.tsx

Non-compliance will be flagged during code review.

All new screens MUST be documented in this document (Section 11) before implementation.
