

@balloo/core-brand

Core brand assets for Balloo platform. Provides Logo component, brand colors, and typography guidelines.

Installation

```
pnpm add @balloo/core-brand
```

Usage

Logo Component

```
import { Logo } from '@balloo/core-brand';

// With image
<Logo src="/logo.jpg" alt="Balloo" size="md" />

// Fallback (Russia flag gradient)
<Logo size="lg" showText={true} />
```

Brand Colors

```
import { BRAND_COLORS } from '@balloo/core-brand';

console.log(BRAND_COLORS.primary);    // '#0039A6'
console.log(BRAND_COLORS.secondary);  // '#D52B1E'
```

Components

Logo

Official Balloo logo component with Russia flag gradient fallback.

Props:

- **src?: string** - Logo image URL
- **alt?: string** - Alt text (default: 'Balloo')
- **size?: 'sm' | 'md' | 'lg'** - Size (default: 'md')
- **showText?: boolean** - Show text (default: true)
- **className?: string** - Additional CSS classes
