

NODE NETWORKING CONTRACT

Версия: 1.0.0

Дата: 2026-06-13

ЦЕЛЬ

Определить сетевую модель экосистемы.

PRIVATE OVERLAY NETWORK

Technology: Tailscale

Purpose: Secure communication between all nodes

Requirements:

- ALL nodes MUST join Tailscale network
 - ALL service-to-service communication MUST use Tailscale IPs
 - NO direct internet exposure for internal services
-

PUBLIC INGRESS

Technology: Nginx/Caddy Reverse Proxy

Purpose: Secure public access

Rules:

- ONLY reverse proxy exposed publicly
 - ALL public traffic MUST go through reverse proxy
 - NO direct port forwarding
-

INTERNAL SERVICE-TO-SERVICE

Network: Tailscale + Docker internal network

Rules:

- Services communicate via Docker network
 - Database accessible ONLY from work_server
 - Redis accessible ONLY from work_server
-

DNS EXPECTATIONS

- Internal: Tailscale DNS
 - External: Self-hosted DNS
 - Services: Internal DNS names only
-
